By the King's  Licence.

For the good of the INHABITANTS of this place;

is juſt arrived from the City of DUBLIN in IRELAND,

# JOHANNES STOCKER,

## the moſt famous WORM-DESTROYER in the Kingdom:

---

HE has brought over with him a large quantity of his never-failing famous WORM-DESTROYS that will kill and deſtroy all ſorts of worms that lodges in the Bodies of Men, Women and Children: this famous Sweet-meat will ſpeedily deſtroy the following Worms, and cauſe them to be voided out of the body. viz. The Pimpled Worms in the Face.— The Stomach Worms.— The ſmall Thread Worms.— The Maw Worms.— The Heart Worms.— The long Round Worms.— The Oval flat Worms.— The long Joint Worms — The long Tape worm.— The ſhort Chub Worm.— The Boot Worm, and all ſorts of Worms the Human body is ſubject to.

This famous Sweet-meat has been in the higheſt eſteem for upwards of 20 Years, for the deſtroying of theſe Vermin called Worms: it has been tried all over Ireland, and great part of America, and ſome parts of England. It has performed many wonderful cures, has brought away a number of monſtrous and diffrent kinds of Worms, which can be witneſſed by thouſands of Perſons, and many have been cured of long ſtanding diſorders by this famous Sweet-meat. It is ſo plefant that when a child has once taſted of it, it cries for more: and is ſo mild and harmleſs in its operation, ſo that any lady might give the proper doſes to her child according to directions, without dread or fear of danger; ſo that a Child may go to its ſchool, and the Man or Woman to their uſual employments. Did people but know this valuable medicine, they never would be without it in their familias, as it will keep good ſeveral years. This Sweet-meat has brought ſome hundreds of Worms from children the ſame day the doſe has been taken: it is the beſt phyſic yet known in all diſtempers where purging is required: it is one of the moſt excellent medicines for deſtroying Worms, ever yet publiſhed, and expelling of Wind, and pain in the Stomach; it expels wind, and gives eaſe to the ſtomach in forty minutes after taken. The doſes of this Sweet-meat is of two ſorts, the one to carry off the Worms, the other to carry off the Worm-matter, and ſlime in the body which creates this horrid tribe.

It is ſold by no perſon but by the proprietor, or his ſervant: they are made up in proper doſes, according to diffrent ages, and ſold in oval boxes with a printed direction incloſed within for the uſe of it. And this I ſay, that whatever credirable perſon, who impartially declares this Worm Medicine to fail, ſhall have their Money returned; but be pleaſed to obſerve your directions, that miſmanagement might not be the cauſe of its faliure. The medicine might be had when this bill is called for.
